OBJECTIVE:

Dedicated and results-driven professional with a strong background in web development. Motivated by challenging technical problems that demand critical thinking and solutions beyond standard or easily searchable approaches.

WORK EXPERIENCE:

Senior JavaScript Engineer

[Omnicores](#), Ukraine (May 2021 - Nov. 2025 | 4 years 6 months)

- Led frontend architecture development for large-scale eCommerce platforms ([Puma](#), [Adidas](#), [New Balance](#), [MDFashion](#), [Ultrashop](#)).
- Fixed **memory leaks**, introduced configurable server cache requests, and optimized performance for high-traffic systems.
- Significantly improved **Core Web Vitals** metrics, enhancing application performance, load times, and overall user experience.
- Migrated legacy codebases to modern frameworks (Nuxt | Vue).
- Migrated a large eCommerce project from **Webpack 2** to **Vite** build, modernizing the build pipeline and reducing build complexity.

Middle Front End Developer

[VIS-A-VIS](#), Ukraine (Feb. 2020 - May 2021 | 1 year 4 months)

- Applied best practices in testing, performance optimization, and design pattern ([Raiffeisen bank](#), [Vodafone](#), etc.).
- Delivered **complex multi-step forms** with advanced validation and state management.
- Developed interactive charts and calculators using Chart.js
- Refactored legacy code into reusable, maintainable components.
- Owned the modernization of the frontend build pipeline by transitioning a legacy Webpack 2 configuration to Webpack 4.

Full-Stack Developer (WordPress)

[UpWork](#), WorldWide (Sep. 2015 - Nov. 2020 | 5 years 2 months)

- Created custom WordPress themes and integrated React/Vue dynamic apps into websites ([UpWork Profile](#), [freelanceHunt](#), etc.).
- Improved **SEO and performance optimization** (PageSpeed + Lighthouse).
- Developed small full-stack apps using **React + Node.js/Express** for clients. Built long-term relationships with international stakeholders, delivering projects end-to-end.

Web Developer

[Bayel](#), Ukraine (June 2014 - Aug. 2015 | 1 year 2 months)

- Built and maintained [website](#) with php, HTML, CSS, JavaScript.
- Implemented SEO optimization and Google Ads campaigns.
- Improved site speed and content management workflows.
